# Southeast Issuers Sell \$77 Billion

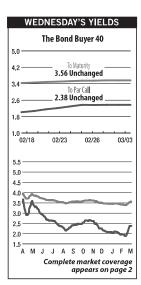

BY CHIP BARNETT

Municipal bond issuers in the Southeast sold \$76.91 billion of bonds in 1,152 issues in 2020, putting volume slightly ahead of 2019, according to Refinitiv data.

The 1.6% volume boost in the 11-state region trailed the national increase of 14.3%, which set an all-time record of \$483.64 billion in 13,273 deals in a year indelibly marked by the coronavirus pandemic.

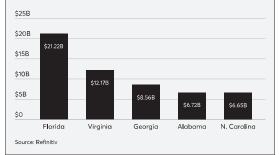

Expect fundamental shifts in the region to drive issuance higher in the long run, according to John Mousseau, president, CEO and director of fixed income at Cumberland Advi-

sors.
"The Southeast — Florida,
Georgia, the Carolinas, they

# Top Southeast states for 2020 municipal issuance

Issuers in the 11-state region sold nearly \$77 billion of debt

will continue to see migration of Northeast citizens — [because of] retirement and taxes," Mousseau said. "On top of that, the red states are turning more blue, which probably means more spending down the road and hence more issuance."

North Carolina, for example, in November re-elected a Democratic governor, while Georgia voted for Joe Biden in November and sent two Democrats to the Senate in January.

In 2020, issuers from Florida made it the fourth largest source of municipal bonds nationally and the largest in the Southeast.

In September, it recorded the region's largest deal of 2020,

when BofA Securities priced the Florida State Board of Administration Finance Corp.'s \$3.5 billion of taxable revenue bonds. Investor demand for muni supply allowed the deal to be upsized by \$1 billion. The single deal made the State Board of Administration Finance Corp. the region's largest issuer in 2020.

Proceeds went to bolster the state's Hurricane Catastrophe Fund.

"It is quite clear that issuers in the region have taken advantage of the low-rate environment," said John Hallacy, founder of John Hallacy Consulting LLC. "The Cat Fund Turn to Southeast page 20

# Court Nixes Bid to Oust COFINA Deal

BY ROBERT SLAVIN

The U.S. Court of Appeals for the First Circuit struck down the final outstanding legal challenge to the Puerto Rico Sales Tax Financing Corp. (COFINA) bond restructuring.

restructuring.

At stake was restructuring of the original COFINA \$17.6 billion of bonds, the Puerto Rico credit with the most outstanding debt.

A group of Puerto Rico credit unions filed an adversary complaint (lawsuit) against COFI-NA on March 22, 2018, after the Puerto Rico Oversight Board had put it into Title III bankruptcy. District Court Judge Laura Taylor Swain approved the COFINA restructuring on Feb. 5, 2019 and the restructuring was implemented beginning on Feb. 12, 2019.

The credit unions and other parties filed four cases with the First Circuit challenging the bankruptcy. On Feb. 8, 2021 the First Circuit rejected the arguments in the three other cases.

As with the other cases, in the Turn to Court page 3

#### **Engineers Give U.S. Infrastructure a Lousy Grade**

By Sarah Wynn

The C-minus grade awarded U.S. infrastructure by the American Society of Civil Engineers highlights the need for legislative provisions that would make it easier and more cost-effective for states and localities to finance crucial projects.

In a report released Wednesday by ASCE, the group called for bold action from Washington to help fund a \$2.6 trillion infrastructure gap over the next 10 years.

This is the first time in 20 years that infrastructure has received a grade above a D, but the picture of American infrastructure still leaves much to be desired. Municipal bond provisions enacted Turn to Municipal page 3

A New York Subway derailment in September. The American Society of Civil Engineers gave U.S. transit a D-minus infrastructure grade.

# Municipals Firmer as New Deals See Yields Fall in Repricings

New issues repriced to lower yields while secondary trading showed firmer trades leading triple-A benchmarks to strengthen on the short end even as U.S. Treasuries saw more losses and equities improved.

Primary pricings Wednesday showed investors comfortable moving in at higher yields with competitive deals from giltedged Baltimore County, Maryland, at or through triple-A benchmarks. The University of Chicago came to market with \$351 million of corporate CUSIP bonds, scaling back from a planned \$600 million deal.

The Investment Company Institute reported \$831 million of inflows into municipal bond mutual funds but \$398 million of outflows from exchange-traded funds for the week ending Feb. 24. Flows from Ref-initiv Lipper to be reported Thursday may be more telling of how the full sell-off has affected the funds, as ICI reports with a lag and Wednesday's figures do not include last week's market moves.

Ratios fell slightly with the diversion of muni to UST yields Wednesday. The 10-year muni/UST was reported at 78% and the 30-year at 80%, according to Refinitiv MMD. ICE Data Services showed ratios at 75% in 10 years and 81% in 30.

For Wednesday, though, investors were engaged in both the primary and secondary.

The market has been rich to Treasuries for a while now and the weakness we have seen [last week] was due, but I believe that there is strong support for municipals going forward," Roberto Roffo, managing director and portfolio manager at SWBC

Investment Company, said Wednesday.

The bellwether deal this week — the \$1 billion New York City general obligation offering — exemplified the existing and continued strong buy side demand and was priced attractively.

The deal received over \$800 million in retail orders after the two day order period.

Based on the retail order period for the New York City deal I believe that the back up in yields has strengthened the demand for municipal bonds from retail investors and left professional money managers looking for a spot to start buying bonds," Roffo said.

BofA Securities priced for institutions the \$1.25 billion New York City (Aa2/AA/AA-/) general obligation offering. The \$900 million Fiscal 2021 Series F and Subseries F-1 saw bonds in 2023 with a 3% coupon yield 0.29%, nine basis points 3% coupon yield 0.29%, lime basis points lower than Monday's retail scale. 5s of 2026 at 0.87%, (-2 bps), 3s of 2035 at 2.22%, (-6) 5s of 2036 at 2.00% (-5), 3s of 2041 at 2.60% (-2), 4s of 2047 at 2.53% (-10) and 3s of 2051 at 2.83% (2). The \$240 million Fiscal 2021 Series 1 reoffering had 5s of 2028 at 1.20% (-1), 5s of 2031 at 1.63% (-2) and 5s of 2035 at 1.96% (-4). The \$113 million Fiscal 2008 Series L Subseries L-5 reoffering had 5s of 2032 at 1.72% (-2) and 5s of 2035 at 1.96% (-4).

New York City sold \$107 million of taxable GOs to Barclays Capital. Bonds in 2028 priced at par at 1.71%, 2029 at 1.94%, 2030 at 2.04% and 2031 at 2.14%.

Also in the competitive market, Baltimore County, Maryland, (/AAA//) sold \$145 million of tax-exempt unlimited tax GOs to BofA Securities. Bonds in 2022 with a 5% coupon yield-ed 0.12%, 5s of 2026 at 0.56%, 5s of 2031 at 1.15%, 5s of 2036 at 1.40% and 3s of 2041 at 1.90%. The issuer also sold \$205 million of exempt UT GOs to Morgan Stanley & Co. Bonds in

Ohio priced \$564.2 million of GOs in two series - new money and refunding portions - through BofA Securities. The new-money series includes \$233 million of Series SCH-A bonds. Bonds in 2028 with a 5% coupon yielded 0.99%, 5s of 2031 at 1.33%, 5s of 2032 at 1.43%. \$111 million of Series SCH-B bonds saw 5s of 2025 at 0.55%, 5s of 2026 at 0.67%, 5s of 2031 at 1.31%, 4s of 2036 at 1.75% and 4s of 2041 at 1.95%.

"With cash flows still positive from retail investors, cash has been building on the sidelines and looking for an attractive entry point," Roffo noted.

Cash, he said, should put a ceiling on how high municipal rates can go.

The current market technicals, fueled by future government aid, should keep the market strong in the near term - despite

some challenges.

"Investors still understand that the new administration has promised to raise taxes, the supply of new bonds will be lower this year, and the economic effects of COVID-19 are still lingering," Roffo explained.

But, the new relief package from Congress will also help states and municipal-ities strengthen their financial positions and "relieve some the fear present in the municipal market," he said

Long-term municipal bond funds and exchange-traded funds saw combined inflows of \$433 million in the week ended Feb. 24, ICI reported Wednesday.

In the previous week, muni funds saw a revised inflow of \$2.921 billion, ICI said.

Long-term muni funds alone had an inflow of \$831 million in the latest reporting week after an inflow of \$2.517 billion in the prior week.

ETF muni funds alone saw an outflow of \$398 million after an inflow of \$404 million in the prior week.

Taxable bond funds saw combined inflows of \$11.940 billion in the latest reporting week after an inflow of \$14.643 billion in the prior week

Although Wednesday's indicators missed to the downside, a report of economic activity showed improvement, and economists see inflation rising, but not at a troubling rate, which will allow rates to remain near zero for a couple of years, in contrast to market fears.

Modest expansion of economic activity occurred in the six weeks from January through mid-February in most Federal Reserve districts, according to the Beige

By Lynne Funk & Gary Siegel

areas saw slight improvement.

Manufacturing improved "moderately" despite supply chain disruptions, which led to moderate cost increases

"On balance, commercial real estate conditions in the hotel, retail, and office

The labor market weakness, if it persists,

While signs suggest inflation will be high-

However, he said, while rising interest rates result in lower bond prices, "the reinvestment of all maturities and coupons compounds at those higher rates, over time offsetting the decline in bond prices

Gradual rate hikes, he said, would push projected cumulative returns for investors in intermediate bond portfolios from about 6.1% over the next decade to 8.4%, "And amazingly, if rates spike up immediately, the return increases to almost 20.4% as higher coupons offset the initial negative return by the third year," Colbert said. "Ironically, bond investors should be rooting and cheering for higher rates rather than fearing them. This is why we do not encourage investors to abandon the bond market or to move materially short in maturity with their investment allocation."

# Municipal Trade Volume Rose Slightly Amid a Volatile 2020

By Sarah Wynn

A 4% increase in the par amount of municipal securities traded in 2020 came as a surprise following a volatile year and record year in municipal bond issuance.

This past year the municipal market had about \$3.1 trillion dollars in total par amount traded compared to approximately \$3 trillion dollars in 2019, according to the Municipal Securities Rulemaking Board's 2020 Fact Book released on Wednesday.

"The total dollar volume of secondary market transactions rose relative to 2019, but I was expecting a bigger increase," said Michael Decker, vice president of policy and research at the Bond Dealers of America. "I thought with all of the volatility last March and April and all of the fallout of the pandemic, we might have seen a bigger spike in

trading volume."

2020 was a record year in municipal bond issuance with a volume of \$474 billion and over 12,000 deals.

"We had a record year for issuance," Decker added. "It was a strong year for trading volume, but I would have thought with the volatility in March and a very strong year for new issues, we would have seen a bigger spike in trading volume."

The MSRB also found in its 2020 report that disclosures provided to the municipal market on an ongoing basis increased by 4.2% over the past year, buoyed by event-based disclosures such as changes in ratings and bankruptcy.

Continuing disclosures increased to 156,847 in 2020, up 4.2% from 2019, the MSRB said. Event-based disclosures increased 15.2% in 2020, mainly driving that

overall increase.

The MSRB also found that the total number of transactions and par amount trades in taxable municipal bonds increased significantly compared to 2019 levels which can be attributed to a spike in taxable issuance in 2020.

This past year had a 9.8% increase in taxable security trades to 676,248 trades and accounted for about 8% of all municipal securities traded in 2020.

The par amount of taxable securities traded increased 52.9% to \$441.9 billion, accounting for 14.1% of total par amount traded.

"The increase in taxable trades and par amount traded accompanied a spike in taxable issuance in 2020," said Marcelo Vieira, MSRB director of research. "As noted in our review of the municipal bond market in 2020, taxable issuance in 2020 was more than double that in 2019, driven in part by issuers taking advantage of the low-interest rate environment to refund outstanding tax-exempt debt with taxable debt."

This past year had a decrease in trades of \$100,000 or less, typically associated with retail investors, down 3.9% in 2020 compared to 2019. Institutional trades — trades of over \$1 million — increased 5.3%.

That trend is in line with years-long shift away from the traditional household purchases of munis.

Last week the MSRB published a report finding that customer purchases of fixed-rate, tax-exempt municipal securities of \$100,000 or less decreased by 46%. Mean-while, institutional-sized purchases of over \$1 million increased 46% in the same time period.

# Municipal Bonds Wait in Wings to Lift C-Minus Grade For Infrastructure

Continued from page 1

by Congress, including the reinstatement of tax-exempt advance refunding, would help improve that picture.

"There is still a lot of work to do on infrastructure," Michael Decker, senior vice president of policy and research at Bond Dealers of America.

"Improvement is great, better our grade is moving up than moving down, but there is still a lot to do. A C-minus is nothing to be proud of."

Bond advocate groups have long pushed for a variety of municipal bond provisions including reinstating tax-exempt advance refunding to help pay for infrastructure. Last week, Sen. Roger Wicker, R-Miss., and Sen. Debbie Stabenow, D-Mich., reintroduced a bill to reinstate tax-exempt advance refunding. A House version of that bill is expected to be reintroduced soon.

Other muni bond provisions include increasing the cap for bank qualified is-

suance to \$30 million from \$10 million, increasing the federal cap on private activity bonds and creating a new kind of direct-pay bond.

"If you can reduce the costs of financing infrastructure investment, state and local governments will be able to afford more infrastructure," Decker said.

Many expect Congress to use H.R. 2, a 2020 infrastructure bill that failed to pass the Republican-controlled Senate, as a template. That bill, the Moving Forward Act, included many of the provisions being pushed by municipal bond lobbying groups including tax-exempt advance refunding and expanding the issuance of PABs.

"There are a lot of options available to Congress to address infrastructure by expanding the use of tax-exempt bonds," Decker said. "We saw Congress delve into that topic last year in H.R. 2. That had a number of provisions which are designed to reduce the costs for state and local governments to finance new infrastructure

investment."

Muni provisions are low cost to the federal government and are effective in financing infrastructure needs highlighted in the ASCE report, said Leslie Norwood, managing director and associate general counsel of municipal securities at the Securities Industry Financial Markets Association.

"Our feeling is that if you can invest more money in your infrastructure, then the conditions would improve and the grade would them improve," Norwood said

Tax-exempt advance refunding, specifically, would reduce interest costs for issuers, which then could be used towards additional infrastructure projects, Norwood added

ASCE's 2021 grades range from a B in rail to a D-minus in transit. Five category grades went up including aviation, drinking water, energy, inland waterways and ports. Bridges took a tumble to a C. Stormwater infrastructure received its first grade — a

D

"Overall, eleven category grades were stuck in the D range, a clear signal that our overdue bill on infrastructure is a long way from being paid off," ASCE wrote.

Almost \$6 billion will be needed over the next decade to bring a variety of infrastructure sectors up to speed. Surface transportation needs the most funding with about \$2.8 billion dollars needed followed by \$1 billion needed for drinking water, wastewater and stormwater.

ASCE called for fixing the Highway Trust Fund, a major part of funding surface transportation, which has been depleted for years. The HTF runs mostly on gas taxes and has used \$144 billion of transfers from the U.S. Treasury's general fund since 2008. ASCE recommended raised the gas tax by five cents each year for the next five years to fund the HTF.

Over 40% of roads are in poor or mediocre condition, ASCE said.

Thirty-seven states have raised their own gas taxes, which is encouraging, according to ASCE.

### **Court Strikes Down Challenge to COFINA's Restructuring**

Continued from page 1

credit unions' case, the First Circuit judges focused their argument on the legal doctrine of equitable mootness, which seeks to avoid undoing complex bankruptcy reorganizations.

reorganizations.

The COFINA plan of adjustment "discharged all claims against the original COFINA and provided for dismissal with prejudice of all litigation arising from the COFINA restructuring," the judges said. They pointed out the plan said, "the releases, injunctions and exculpation ... constitute an essential component of the compromises reached and are not severable from the other provisions of this plan."

In Tuesday's decision they quoted from their February decision saying deciding whether to reject an appeal of an implemented reorganization plan requires consideration of three factors: "(1) whether the appellant pursued with diligence all available remedies to ob-

tain a stay of execution of the objectionable order; (2) whether the challenged plan proceeded to a point well beyond any practicable appellate annulment; and (3) whether providing relief would harm innocent third parties."

On all three factors, the Circuit judge found the credit unions to have fallen short.

Regarding the first factor, "the credit unions here were anything but diligent in seeking to obtain a stay or prevent delay: They failed to object to the waiver of the automatic stay of confirmation, to seek any stay pending appeal, to request to expedite the appeal, or to object to requests for extension."

Regarding the second and third factors, the judges said the plan "has now been fully implemented for over two years and ... has led to tens of thousands of transactions worth billions of dollars by third parties relying on it in good faith. Upsetting the plan at this late date would throw those transactions into doubt, harming those

third parties."

In the credit unions adversary proceeding they argued in the years leading up to the bankruptcy Puerto Rico's central government and COFINA had fraudulently induced them to purchase COFINA bonds. Near the end of their opinion, the circuit judges suggested the credit unions could sue the Puerto Rico central government for their claims, rather than COFINA, as they have been doing.

The circuit judges remanded the case to the District Court, which is a fairly common way of ending a case. If the credit unions wish to continue their case they would have to request a hearing en banc (in which all the First Circuit Court judges would rule on their case) or petition the U.S. Supreme Court for certiorari (which would be asking the court to review the Circuit Court's decision).

The COFINA seniors group and the lawyer for the credit unions did not immediately respond to requests for a comment on the ruling.

#### **SUMMARY NOTICE OF SALE**

#### \$42,030,000\*

St. Johns County, Florida Taxable Water and Sewer Revenue Refunding Bonds, Series 2021

NOTICE IS HEREBY GIVEN that electronic bids via IHS Markits Parity/BIDCOMP Competitive Bidding System (the "Parity System") for the purchase of all, but not less than all, of \$42,030,000\* aggregate principal amount of St. Johns County, Florida Taxable Water and Sewer Revenue Refunding Bonds, Series 2021 (the "Bonds") from St. Johns County, Florida (the "County") will be received by the County up to:

#### Time: 10:30 a.m. Eastern Daylight Savings Time, March 16, 2021\*

Bids may only be submitted electronically in accordance with the Official Notice of Sale and the Parity System requirements. All bids will be reviewed and the winning bid will be determined publicly at the office of the County Administrator of St. Johns County, Florida following receipt of bids as described in the Official Notice of Sale.

The Bonds will be dated as of their date of delivery, will be issued in fully registered book-entry-only form through a system of registration maintained by The Depository Trust Company, New York, New York as securities depository. The Bonds will be sold in beneficial interests of \$5,000 or any integral multiple thereof and will pay interest on June 1 and December 1 of each year, commencing June 1, 2021. The Bonds will mature in accordance with the provisions of the Official Notice of Sale.

At the time of delivery of the Bonds, the County will also deliver to the successful bidder, at the expense of the County, the approving opinion of Nabors, Giblin & Nickerson, P.A., Tampa, Florida, Bond Counsel, in substantially the form appearing in the Preliminary Official Statement described below.

The complete Official Notice of Sale, together with the Preliminary Official Statement relating to the Bonds, may be obtained from PFM Financial Advisors LLC, 300 South Orange Avenue, Suite 1170, Orlando, Florida 32801, telephone: 407/406 5760 or gloverj@pfm.com, Financial Advisor to the County. The Preliminary Official Statement as of its date shall be "deemed final" by the County for purposes of SEC Rule 15c2-12(b)(1), but is subject to revision, amendment and completion in a final Official Statement.

To perform security improvements in the schools.

Caddo Co ISD #160 \$245,000

To renovate, repair, equip and remodel the

Caddo Co ISD #160 \$55,000

To acquire student transportation equipment.

Canadian Co ISD #76 \$2,500,000 To construct, furnish and equip an Ag Barn; install air conditioning in the gymnasium and acquire a locker room addition.

Cherokee Co ESD #10 \$200,000

For purchasing two school buses. Creek Co ISD #33 \$1,195,000

To purchase and install furniture, fixtures and equipment and technology; security and facilities upgrades

Creek Co ISD #33 \$450,000

Grady Co ISD #99 \$250,000

To acquire vehicles for pupil transportation.

Grant Co ISD #54 \$9,400,000

To construct, equip and furnish a new classroom addition/saferoom.

Love Co ISD #16 \$18,990,000

To construct, furnish, equip and acquire new high school buildings.

Maud Pub Schs \$715,000

For new safe room addition and air conditioning in the gymnasium.

Muskogee Co ISD #74 \$750,000

To construct a new band room and a new cheer room.

Noble Co ISD #6 \$200,000 To acquire student transportation equipment.

Noble Co ISD #6 \$50.000

To acquire and install softball field lights, install safety and security equipment.

Okmulgee Co ESD #11 \$775,000

To build a new cafeteria and improvements to existing buildings

Okmulgee Co ESD #11 \$170,000 To purchase two new school buses.

Pittsburg Co ISD #28 \$205,000

For security upgrades, facility repairs, improvements at gymnasium, repairing roofs and plumbing.

Seminole Co ISD #15 \$475,000

To construct and acquire safe room, a concession stand with restrooms at the athletic fields; for renovations and repair to existing sites.

Washita Co ISD #11 \$600,000

To construct, equip, renovate and improve facilities, install technology equipment and acquire vehicles for school use.

Washita Co ISD #11 \$360,000

To acquire vehicles for pupil transportation.

#### RHODE ISLAND

Rhode Island \$107.300.000 For renovation in university and colleges

Rhode Island \$74,000,000

For state beaches, parks, recreational facilities, and water projects

Rhode Island \$71,700,000

For improvements of ports, highways, roads, and bridges.

Rhode Island \$65,000,000

For new housing construction, renovation, and property acquisitions.

Rhode Island \$60,000,000

To fund improvements to industrial facilities infrastructure

Rhode Island \$15,000,000

For the Early Childhood Care and Education Capital Fund

Bhode Island \$7000,000

For the Cultural Arts and the Economy Grant Program and the State Preservation Grants

#### DEFEATED

Tuesday, Mar 02, 2021

#### IOWA

lowa Falls Comm SD \$28,560,000

To build, furnish, equip a new elementary building and for improvements to the existing school site.

Mitchellville \$1,500,000

To construct, improve, furnish and equip a municipal fire safety facility.

Monona County \$6,200,000

To build a new jail and public safety center.

#### **OKLAHOMA**

Bryan Co ISD #48 \$200,000

Sequoyah Co ISD #1 \$3,500,000 For to construct and equip storm shelters

The Southeast region includes Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia. Sond rankings are based on issues maturing in 13 months or more. Private placements, remarketings, and issues not meeting Refinitiv "T+5" policy rule are excluded. In issues with multiple book-runners, each firm is credited with its actual allocation. In issues with multiple co-advisors or co-counsel, the para amount of the issues is divided equally among the firms.

#### New R.I. Governor is Sworn in

By Paul Burton

Gov. Gina Raimondo's confirmation by the U.S. Senate as commerce secretary on Tuesday marked the passing of the torch in Rhode Island to Lt. Gov. Dan McKee.

Democrat Raimondo, 49, resigned after the Senate confirmed President Biden's January nomination of her to the cabinet position by an 84-15 vote. Approvals included leading Republicans such as Minority Leader Mitch McConnell and Rand Paul, both of Kentucky, and Lindsey Graham of South Carolina.

Sen. Ted Cruz, R-Texas, spoke against Raimondo's nomination on the floor, referencing what he said were her "evasive" comments about Chinese telecommunications giant Huawei, which the federal government has sanctioned over national security concerns.

McKee, 69, became the state's 76th governor, with a swearing in by Secretary of State Nellie Gorbea at the capitol in Providence. Raimondo had departed for Washington earlier in the day. McKee, also a Democrat, will serve the remaining 22 months of Raimondo's second four-year term.

"We are ready to help the people of the state of Rhode Island through this pandemic and also beyond that," McKee told reporters earlier Tuesday at the Dunkin' Donuts Center in downtown Providence, after he received a vaccine.

McKee said he and Raimondo exchanged text messages wishing each other well. He became the first Rhode Island lieutenant governor to succeed a governor in mid-term since 1950, when Gov. John Pastore resigned upon his election to the U.S. Senate.

"The nation is lucky to have her, and it is

"The nation is lucky to have her, and it is an honor for Rhode Islanders to have one of their own represented in President Biden's cabinet," said state General Treasurer Seth Magaziner, who succeeded Raimondo in that office and worked with her at Point Judith Capital, a venture capital firm.

Capital, a venture capital firm.
Raimondo, Rhode Island's first female governor, pushed for economic development initiatives and generated national headlines for pension overhaul legislation that she championed in 2011, while treasurer. Biden in January said Raimondo would be a "key player" in helping position the U.S. as an exporter of 21st-century products and a clean-energy economy leader.

Challenges for McKee, a former Cumberland mayor, will range from effective vaccination rollout to working on the \$10 billion-plus budget with top lawmakers, including new House Speaker Joseph Shekarchi, D-Warwick.

Also on Tuesday, Rhode Island voters authorized seven bond measures totaling \$400 million to benefit projects in transportation infrastructure, housing, educational building improvements and parks.

State lawmakers postponed the vote from the traditional Election Day because of COVID-19 related delays in the state budget process.

"Rhode Islanders had the opportunity to build a stronger, brighter future for our state, and we did just that," Magaziner said late Tuesday night.

State officials have estimated the total cost at \$642 million, based on 20-year loans and a 5% interest rate. Actual rates, however could

Dan McKee was sworn in as the Rhode Island governor Tuesday.

e lowe

The borrowing included \$107.3 million for renovation and modernization of the University of Rhode Island Fine Arts Center, the Rhode Island College Clarke Science Building and the Community College of Rhode Island; \$74 million for state beaches, parks, recreational facilities and water projects; and, \$65 million of bonds for building and renovating housing projects.

Voters also approved \$71.7 million for transportation infrastructure; \$15 million for the early childhood care and education capital fund; \$7 million for cultural arts and the economy grant program and the state preservation grants program; and, \$60 million to fund improvements to industrial site development at Quonset Business Park.

According to official results from the state Board of Elections, transportation infrastructure won by the biggest margin at 80.4%, while Quonset development won by the smallest margin at 58.7%.

Shekarchi, in a push for the housing bond, released a package of legislation on Monday to advance affordable housing.

One of the seven bills would create within the Executive Office of Commerce a deputy secretary of commerce and housing, who will oversee related initiatives and develop a plan that will include affordable housing, strong community building and neighborhood revitalization efforts.

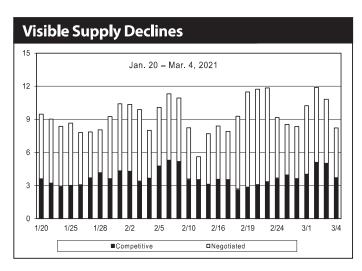

Other legislation would create a legislative commission to study all aspects of land use; prohibit housing discrimination against those who receive government assistance to pay rent; create a legislative panel to study the state's Low and Moderate Income Housing Act; extend for three years a tax-exemption to encourage more affordable housing development; require towns and cities to allow use of small homes as accessory dwelling units and counted as affordable; and, more easily enable local planning boards to establish a quorum for votes to help prevent delays in development matters.

Shekarchi also said the \$200 million of rental assistance for Rhode Island approved in the December federal rescue package would help immediate, pandemic-related housing crises.

The Municipal Bond Index presented today employs the coefficient derived from the February 26, 2021 pricing, when it was set at 1.0695. The average price represents the simple average price of the 40 bonds. The yield to par call is computed from the average price, the average coupon (4.08%), and the average first par call date (September 27, 2026). Noncallable bonds are included in the par call yield calculations, with their maturity dates serving as their par call dates in the calculations. The yield to maturity is computed from the average price, the average coupon, and the average maturity date (November 16, 2046).

# Southeast Kept an Even Keel Amid The 2020 National Volume Record

Continued from page 1

is in the market on a regular basis and is very careful about trying to tap the market when the best rate is available."

Ben Watkins, a member of the corporation's board and director of Florida's Division of Bond Finance, told The Bond Buyer Tuesday that a variety of factors drove the deal's success.

"Our strategy on this deal was a little bit different. Some of the previous transactions we had executed for Cat Fund had been tax-exempt in the 2005-06 era when we blew out the fund from six hurricanes in two years and we have done pre-event deals which we do on a taxable basis, which was what this was, for liquidity purposes."

Prior to this deal, Watkins said the reception from the investor community had been mixed.

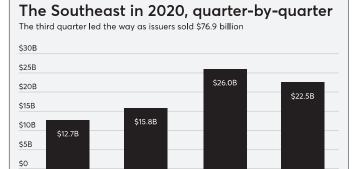

He attributed this to "a misunderstanding regarding what a Cat Fund is and what it is not. This is fundamentally a muni credit secured by taxes on insurance policies."

Watkins said the underwriter did a good job in lining up nearly 40 one-on-one calls with investors ahead of the sale and that they had over 100 accounts participate in the transaction.

"So we really were looking to broaden the investor base, so that in the future when there may come a time when we need access to credit, we want everyone to understand this credit and what better way to understand this credit than to own it." he said.

"As a consequence the Cat Fund is going to be very well-positioned on a go-forward basis with an educated investor and analyst community for any future borrowings," Watkins added.

The issuer coming in second place was also from the Sunshine State: Mi-ami-Dade County. The county sold \$2.97 billion of debt in 15 issues in

Second Quarter

2020.

The single biggest deal from Miami-Dade was a \$513 million compettive sale of taxable transit system sales surtax revenue refunding bonds which was won by Morgan Stanley in August.

First Quarter

"One item that was missing in the region was deficit financing," said John Hallacy of John Hallacy Consulting LLC. "I do not think issuers in this region perceived the need."

According to Michael Rinaldi, Fitch senior director and head of U.S. local governments, the Florida economy and its employment picture has been improving.

Fourth Quarter

Third Quarter

He told The Bond Buyer that the state was doing favorably when compared to the U.S. average in recovering jobs lost to the pandemic, increasing job gains at a slightly better pace through December. He said a lot of that had to do with policy at the state and local level.

"Florida has opened up its economy

"Florida has opened up its economy at a more rapid pace than may other states, particularly those in the Northeast," Rinaldi said. "And so there's a decent amount of economic activity taking place."

In his State of the State Address on Tuesday, Florida Gov. Ron DeSantis also stressed that because Florida's economy is open, revenue is coming in at levels higher than the most recent revised estimates.

"For the last three months — December to February — preliminary estimates peg the increase in revenue at more than \$800 million over and above the December revenue estimation." he

said. "Florida is below the national average in unemployment and much lower than our peer states of Texas, New York and California. We also anticipate downward revisions of December's unemployment numbers to reflect even stronger jobs numbers."

Rounding out the five largest issuers in the region for the year were the Virginia Housing Development Authority (\$1.59 billion in 14 issues), the Alabama Public School and College Authority (\$1.48 billion in two issues), and the state of Louisiana (\$1.43 billion in four issues).

"One item that was missing in the region was deficit financing," Hallacy said. "I do not think issuers in this region perceived the need. Instead they trimmed their budgets within reason."

Eric Kim, a Fitch director, said that for the most part the agency hadn't seen credit trends bifurcated among the states. He said that most state revenues were performing better than was anticipated. "Relative to pre-pandemic expectations, most states are still trailing, but not all," Kim said. "So things are better than had been expected at the start of the pandemic."

Trailing Florida in overall bond volume were Virginia at \$12.17 billion, a 32.3% increase from last year; Georgia, at \$8.56 billion, down 24.8% from 2019; and Alabama at \$6.7 billion, up more than 29%.

Alabama's numbers were lifted by the Souteast's second-largest deal of 2020, a \$1.48 billion transaction in October from the Alabama Public School and College Authority.
