RSS (Really Simple Syndication) provides a simple way to have our content delivered directly to you without you having to check our site for new posts and events. In other words, keeping up with our events and webinars has never been easier, simply subscribe to our events feed and when we post a new event you will be notified. The RSS feed will provide a headline and quick link for you to view the desired content directly on our website.

To receive RSS feeds, you need an RSS reader or aggregator downloaded to your system. There are many options available, some recommendations are Feedly, NewsBlur, and Inoreader. Additionally, some web browsers have an RSS reader built-in.
